 Galle, Sri Lanka

Detail oriented Quality Assurance Engineer with nearly 2 years of experience, including roles as an Intern and Associate QA Engineer at Cloud Solutions International, and a graduate from the Faculty of Information Technology, University of Moratuwa. Experienced in manual and automated testing with hands on expertise in API, UI, and mobile automation, as well as performance testing. Skilled in test design, defect management, and working in Agile environments to deliver reliable, high-quality software solutions. Strong analytical skills with a commitment to continuous learning and improving testing efficiency.

Experience

Associate Quality Assurance Engineer

February 2025 - Present

Cloud Solutions International

- Worked as an Associate QA Engineer contributing to end-to-end quality assurance activities across multiple projects in Agile environments. Gained strong hands-on experience in API, UI, and mobile automation testing, designing and maintaining scalable automation frameworks using tools such as Rest Assured, Selenium, Serenity BDD, Appium, and Cucumber. Responsible for test case design, automation script development, test execution, defect reporting, and regression testing. Actively collaborated with developers, BAs, and cross-functional teams to analyze requirements, identify edge cases, and ensure high-quality releases. Performed performance testing using JMeter and K6, validated backend data using SQL and NoSQL databases, and contributed to CI/CD-driven testing workflows.

Intern Quality Assurance Engineer

April 2024 - February 2025

Cloud Solutions International

- Completed internship focusing on building foundational knowledge in software quality assurance, including both manual and automation testing practices. Gained practical exposure to API testing using Postman and Rest Assured, UI automation using Selenium, and database validation using MySQL and PostgreSQL. Assisted in writing and executing test cases, identifying defects, performing regression testing, and supporting pre-production validations. Learned to work within Agile/Scrum environments, participated in daily stand-ups, and collaborated with senior QA engineers and developers

Education

University of Moratuwa

Jun 2021 - Jun 2025

B.Sc. (Hons) in Information Technology

- Graduated with Second Lower Class

Mahinda College Galle

2010 - 2019

G.C.E Advanced Level Examination - Physical Science

- A B B

Projects

Detecting & Mitigating Racial, Gender and Socioeconomic Biases in GPT Models

2025

Final year research project

- Analyzed gender bias in GPT models using lexical analysis and NLP techniques to identify biased language patterns and assess fairness using standard metrics.
- Applied augmented training approaches to mitigate bias and improve model fairness, supporting more inclusive and ethical AI systems.

API Testing and Serenity BDD UI Testing Project

2024

Group Project

- Implemented UI and API automation using Serenity BDD with Cucumber for BDD-based test scenarios in a group project.
- Set up GitHub Actions for CI/CD to enable automated test execution and continuous quality validation.

Quotation Requesting System for Event Photography

2022

Second year software project

- Developed a full-stack event photography quotation system with React, Flutter, Node.js, MongoDB, and AWS S3, featuring quotation and donation functionality.

Automatic Boxing Training Machine

2021

First year hardware project

- Developed an automatic boxing training machine using an ATmega32 microcontroller, programmed in C for opponent-free training and performance improvement.

Skills

- **Test Automation Tools** : Rest Assured | Selenium | Serenity BDD | Appium | Cucumber
- **Programming Languages** : Java | C
- **Databases** : MySQL | MongoDB | MS SQL | PostgreSQL | Oracle
- **Performance Testing tools** : Apache Jmeter | K6
- **API Testing Tools** : Postman
- **Test Management** : Jira | TestRail | Git
- **Soft Skills** : Leadership Skills | Team working | Communication skills
- **Interests and Hobbies** : Teaching | Volunteering | Travelling | Carrom | Cricket

Extracurricular Activities & Achievements

- 2nd Runner-Up – Spark Tank Startup Pitching Session, Cloud Solutions International
- Runner-Up – Automation Competition, Cloud Solutions International
- Batch Representative – Faculty of Information Technology, University of Moratuwa
